**Figure 2 – Detailed cyber security risk assessment workflow per zone or conduit**

4.6.2   ZCR 5.1: Identify threats

4.6.2.1   Requirement

A list of the threats that could affect the assets contained within the zone or conduit shall be developed.

4.6.2.2   Rationale and supplemental guidance

It is important to prepare a comprehensive and realistic list of threats in order to perform a security risk assessment. A threat description should include but is not limited to the following:

a) a description of the threat source;

b) a description of the capability or skill-level of the threat source;

c) a description of possible threat vectors;
